

do you know if
you are eligible
to receive a transplant?

#knowyoureeligibility

Do you know if you are eligible for a transplant?

Many patients assume that once they start dialysis that they are already on the transplant wait list, however you need to talk to your nephrologist about your eligibility.

Step 1. Ask your nephrologist! Am I eligible for transplant?

Step 2. If you are eligible, and you are interested in transplant, ask your nephrologist for a referral to your local Transplant Coordinator to start the process.

Step 3. You will have a consultation with your Transplant Coordinator to provide education, information and steps forward to get the process started.

Step 4. Contact a Transplant Ambassador! We are kidney donors and recipients who have been there too, and we would love to share our story, knowledge and experience to help you through this journey.
